## PITTSBURG'S FUTURE.

New Methods Are Bringing Our City More and More to the

FRONT IN THE COMMERCIAL WORLD

The Newspaper and Drummer Are Now a Recognized Force.

OUTLOOK FOR THE YEAR BEFORE US

OFFICE OF PITTSBURG DISPATCH, TUESDAY, Jan. 18. Value of Advertising Trade.

There is no better established fact in business than that money expended in advertising comes back with compound interest. The strong merchants of Pittsburg have invested heavily in printer's ink. To stint at this point is to be penny wise

and pound foolish. The day has passed when business will come to the merchant without pushing trade. The drummer and the newspaper have in these late days become prime necessities, and the tradesman who neglects either is sure to be left in the race for success. Business methods in vogue generation ago, which enriched our fathers are now obsolete, and woe to the man who is unable to adapt himself to the new without. Said one of our most enterprising and successful merchants recently: "If I bould attempt to run mybusiness as my father id, my occupation would suon be gone. In the boshood, Pittsburg merchants waited for rade to come to them. Now they must go for orde. The drummer and newspaper have because necessities to the successful merchant recy jebbine house of the city has its representatives out with samples visiting stores in arrounding towns and villages, pushing sings generally, and in addition to this the accessful merchant must keep himself steadily close the neighb through the newspaper, high finds its way to every namiet.

Lucking for Both of Them. nd successful merchants recently:

Looking for Both of Them. For a hundred miles or more around Pittsmrg the storekeeper is on the lookout for the frummer and newspaper, and the merchant upo fails to make the most of these channels by which to reach the buyer, misses his best responsibilities. There are a number of leading justiling trades in which Pittsburg comes into successful competition with Eastern cities at Altoona and Cumberland, and with the West at Columbus and Cincinnati. There was a time not very far away when Pittsburg was regarded only as a center of the heavy-weight industries pertaining to from and steel. Of late years our city has come to be receivabled as a great commercial center. In the line of groceries, drygoods and millinery goods there are but two cities west of the Allegaenies which now surpass our own in volume of trade, and with the same increase the next decade as the past there will be but one, namely. Chicago, The Pittsburg new-paper and drummer have been leading instruments in pushing our trade, so that after long years of conservatism and obscurity in the commercial world, our city is asserting itself is a commercial as well as manufacturing center. The Trails Outlook.

The Trade Outlook. Since the opening of the year jobbing trade every line has been slow. This is ever the ituation at this season. There are, however, pecial reasons for quiet trade this season. The ingency of the money market has been a time factor in producing present quietness. Vill tight money retailers are inclined to buy saringly, and purchases are in the main only gly, and parchases are in the main only recult and it. Then may day comes along early part of January, and this is an ad-al reason for quickness of trade. The out-bowever, is good. There is the same for the leading staples as ever, and use is near when stocks in the hands of lasts, which are now very light, must arraly be replenished. EAST END PROPLE SELL OUT. Real Estate Auction Scheme Reaches a Point That Assures Success.

THE NEWS AND GOSSIP OF THE CITY

The East End Electric Light Company has sold to the Wilkinsburg Electric Light Company all of its territory east of the city line, the latter assuming all contracts of the former. The East End Company entered the territory in question more as an experigreat cost of power, and results are not always satisfactory. Having accomplished its purpose the East End Company gives way to the Wilkinsburg people, who will proceed at once to enlarge their plant.

An Assured Success.

Another meeting of real estate brokers was held at the office of the Real Estate Record yesterday afternoon to perfect the scheme for conducting sales by auction. There was a large attendance, and much interest was taken in the proceedings. The Committee on Rules, appointed at the former meeting, reported a length, and their report after considerable dis was adopted. The President was empowered names and subscriptions of real estate agents and auctioneers interested in the movement, and reappointed Messis, Alexander Leggate, John F. Baxter and Samuel W. Black to perform that duty. The meeting to complete the organization will be held at the same place Friday afternoon next at 3:30 o'clock.

The meeting was entirely harmonious, although discussion was animated at times, and the result shows great unanimity of sentiment in the objects to be attained as well as in the methods to be pursued. It can now be said that the new departure is an assured success. names and subscriptions of real estate agents

A Manufacturers' Co. Oil Strike

The Manufacturers' Gas Company seems to be enjoying an exceptional run of good fortune in these days. At the outstart it had a diffi-cult experience in building up its business, but now the fates conspire to make its stock the highest in quotations on the market, to fill its pipes with gas, and to augment its stores of oil. Yesterday it experienced a double stroke of luck, striking a 50-barred oil well in the midst of undeveloped territory-the Linn farm, The well flowed four or five times at 20 feet in drill goes down. It is on a line with the famous drill goes down. It is on a line with the famous McKeown well, which produced 490,000 barrels in its time and is still good as a 40-barreler. The Manufacturers' Company has about 400 acres around its new venture, which is in the very heart of the tract. It never rains but it pours; and this was illustrated afresh vesterday by the same company striking another powerful gas well on the Rooney farm.

Business News and Gossip.

There will be busy times in the Twenty-sec ond and Twenty-third wards the coming season. Many improvements, some of great importance, are on the slate. Bank directors, whether they direct or not, must give satisfaction, as the outcome of yesterday's ejections shows scarcely any changes. There were 35 alarms of fire at Altoona in 1890, 20 less than in 1:89. "How do you know whether you will ever

come out alive when you go into a burning building with your men?" was asked of a fireman, "We don't, of course; we only know our chief is looking out for us and will give us orders in time, if we get in any danger of being cut off by fire. We have only one thing to docuat is to try and best the fire. If the smoke gets too thick, then we get down as near to the floor as we can, catch what little air there is there, then up and tackle it again."

NO BUSINESS.

Oil Traders Fail to Come Together Again-Bullish Conditions.

For the second time this week yesterday passed without a single trade in oil. There were no offers, but 73% c was bid.

A broker remarked: "The conditions are so bullish that I, for one, do not feel like selling at the present price. I think it will pay me to wait."

NEW YORK, Jan. 18 .- The stock market tolay was active and strong during most of the day, though there was some hesitation in the early dealings, which soon disappeared, and there was a most decided advance toward the close. The traders were generally inclined to push the reaction of yesterday to larger proportions, but there was a marked absence of selling of long stocks, and receiving no help

Nanck I land were all very strong and ther was Gould buying in Union Pacific, which wa not without its influence upon the remainder o the list. Most of the buying is pased upon the the list. Most of the buying is based upon the improved financial conditions over the entire world and the bright outlook for the railroads.

The market closed with a little boom at the best prices of the day. The final changes are all advances, and Sugar is up 3%; Rock Island, 2%; C., C., C. and St. L. 2%; Lackawanna and Union Pacific, each 1½; Burlington, 1½; St., Paul, Western Union and Wabash preferred, each 1½; Northwestern, Louisville and Nashville, North; ern Pacific and Richmond and West Pointeach 1½; Chicago Gas and North American, each 1½; Alchison, Teunessee Coal and Wheel, ing and Lake Erie preferred, each 1 per centand others fractional amounts.

Railroad bonds continue active, but the volume of business was rather less than a few days ago, while the strong tone to the dealings days ago, while the strong tone to the dealings is less pronounced. To-day the total transac-tions were \$2,394,000, and a few material de-

is less pronounced. To-day the total transactions were \$2,394,000, and a few material declines are to be noticed as the result of the trading. The great majority of the list, however, are higher, though the important changes are comparatively few. The Atchison momes were not so active to-day, and the leading active issues were Northern Pacific 5s, with \$257,000. Reading firsts with \$236,000, and the Texas Pacific seconds with \$118,000. Among the advances may be noted New Albany and Chicago consols, 4 to 91; New York and Northern seconds, 225 to 4752.

The Post say: A good many speculators, and also many commission houses, were disposed to look for a further downward reaction. The general opinion, however, seemed to be that it would be only a "reaction," and not a continued decline. In fact, there is nothing in the situation, either in this country or in Europe, to warrant any expectation of a recurrence to anything near the prices of November and December. Those prices were the effect of extraordinary causes and a panic, and could scarcely occur again. On the courtary, there are good reasons for expecting a further advance. London did a little selling this morning, and the bears here immediately proceeded to put out new lines of shorts, but their selling had little effect on the market.

UNDER NEW RULES.

A Sub-Committee of Passenger Agents to Be Formed Here.

The leading passenger men of the local roads will meet at the Seventh Avenue Hotel to-morrow to organize a sub-committee under the new rules of the Central Traffic Association. new rules of the Central Traine Association.

This committee is expected to deal with all
matters not considered of sufficient importance
to be referred to the general association. They
will make reports of their proceedings to the
chairman in Chicago.

The passenger agents have always been
organized in this city, and this new committee
will probably take the place of the present aswill probably take the place of the present as sociation.

AN EXTENSION OF TIME.

Fire Escape Manufacturers Unable to Supply the Demand. Chief Brown has extended the period in which property owners can erect fire escapes, although the time of his first notice expired. All the fire escape manufacturers are expired. All the lire escape manufacturers are so rushed with orders that it is impossible to get the work out in the time allotted.

Chief Brown said yesterday that wherever the contract for the erection or a fire escape had been let no action will be taken. A list of all the buildings on which there are no fire escapes will now be taken and the real owners of the property will be compelled to erect them.

THE WRONG DECREE.

It Was Not a Divorce That Peter Hermes

On January 3 a decree was made in the equity suit of Anna M. Hermes against Peter Hermes in regard to the title to some property, fixing the master's fee at \$350. Inadvertently the notice of a decree in the case was included in notice of a decree in the case was included in the list of decrees of divorce, making it appear that Mr. Hermes had been divorced. As Mr. Hermes and his wife are on the best of terms, he disliked the notice he received from sequaintances in regard to the matter, and asked for a correction.

In justice to him it should be said that the statement that it was a decree of divorce was a mistake, and Mr. Hermes is not concerned in any divorce case.

WILL PRACTICE HERE.

An Old Cambria County Lawyer Who Will Remain in Pittsburg.

Hon, Daniel McLaughlin, formerly of Johnstown, has resumed the practice of the law in Pittsburg. He was the most prominent crimmal lawyer at the Cambria county bar "before the flood," but in the rush of the water he was severely injured and partially paralyzed.

Mr. McLaughlin's health has been restored, and he has decided to remain in Pittsburg, where he has been since the fatal break in the South Fork dam occurred.
